Independent Auditor's Review Report

SK Holdings Co., Ltd.
The Shareholders and Board of Directors

We have reviewed the accompanying interim condensed consolidated financial statements of SK Holdings Co., Ltd. (the "Company") and its subsidiaries (collectively, the "Group"), which comprise the interim condensed consolidated statement of financial position as of March 31, 2020, and the interim condensed consolidated statements of comprehensive income for the three months ended March 31, 2020 and 2019, interim condensed consolidated statements of changes in equity and interim condensed consolidated statements of cash flows for the three months then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the interim condensed consolidated financial statements

Management is responsible for the preparation and fair presentation of these interim condensed consolidated financial statements in accordance with Korean International Financial Reporting Standards (KIFRS) 1034 *Interim Financial Reporting*, and for such internal control as management determines is necessary to enable the preparation of the interim condensed consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

We conducted our review in accordance with the review standards for interim financial statements in the Republic of Korea. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Korean Auditing Standards (KGAAS). Consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not presented fairly, in all material respects, in accordance with KIFRS 1034 *Interim Financial Reporting*.

Other matters

We have audited the consolidated statement of financial position of the Group as of December 31, 2019, and the related consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended in accordance with KGAAS (not presented herein), and our report dated March 10, 2020 expressed an unqualified opinion thereon. The accompanying consolidated statement of financial position as of December 31, 2019, presented for comparative purposes, is not different, in all material respects, from the above audited consolidated statement of financial position.

2. Summary of significant accounting policies

2.1 Basis of preparation

The Group prepares statutory interim condensed consolidated financial statements in the Korean language in accordance with KIFRS 1034 *Interim Financial Reporting* enacted by the *Act on External Audit of Stock Companies*. The accompanying interim condensed consolidated financial statements have been translated into English from the Korean language financial statements. In the event of any differences in interpreting the financial statements or the independent auditor's review report thereon, the Korean version, which used for regulatory reporting purposes, shall prevail.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as of December 31, 2019

.

2.2 Significant accounting policies

The significant accounting policies used for the preparation of the accompanying the interim condensed consolidated financial statements as of and for the three months ended March 31, 2020, are the same as the accounting policies adopted for the preparation of consolidated financial statements as of and for the year ended December 31, 2019, except for adoption of new and revised KIFRSs applied in the current period, which are summarized below.

2.2.1 New and revised KIFRSs adopted in the current period

The Group has applied amendments to KIFRS issued that are mandatorily effective for accounting periods beginning on or after January 1, 2020.

KIFRS 1001 Presentation of Financial Statements and KIFRS 1008 Accounting Policies, Changes in Accounting Estimates and Errors (Amended)

The amendments align the definition of 'material' across the standards and clarify certain aspects of the definition. The new definition states that, 'information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity. These amendments had no significant impact on the Group's financial position or management performance.

KIFRS 1103 Business Combination (Amended)

The amendment to KIFRS 1103 clarifies that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. Furthermore, it clarified that a business can exist without including all of the inputs and processes needed to create outputs. These amendments had no significant impact on the Group's financial position or management performance.

KIFRS 1107 Financial Instruments: Disclosures, KIFRS 1109 Financial Instruments, KIFRS 1039 Financial Instruments: Recognition and Measurements (Amended)

The amendments provide a number of reliefs, which apply to all hedging relationships that are directly affected by interest rate benchmark reform. A hedging relationship is affected if the reform gives rise to uncertainties about the timing and or amount of benchmark-based cash flows of the hedged item or the hedging instrument. These amendments had no significant impact on the Group's financial position or management performance.

2.2.2 New and revised KIFRS issued, but not yet effective

The Group has no new and revised KIFRSs that have been issued, but are not yet effective for this accounting periods.

3. Significant accounting judgments, estimates and assumptions

When preparing the interim condensed consolidated financial statements, management is required to make judgments, estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses. Actual results may be different from those estimates.

Those accounting judgments made by management in the preparation of the interim condensed consolidated financial statements for the three months ended March 31, 2020, are consistent with those followed in the preparation of consolidated financial statements for the year ended December 31, 2019.

3. Significant accounting judgments, estimates and assumptions (cont'd)

In order to prevent the spread of COVID-19, various prevention and control measures including restrictions on movement are being implemented worldwide, and as a result, the global economy is widely affected. In particular, the Group conducts operations in the petroleum refining, telecommunications, wholesale and retail, chemicals, construction and other industries, and the Group is exposed to the uncertainties of the market due to the impact of COVID-19. As of the end of the reporting period, uncertainties due to the effects of COVID-19 have not been resolved, and these uncertainties may have a significant impact on the financial performance and cash flows of the Group.

4. Operating segments

5.3 Fair values of financial instruments by hierarchy level

1) Fair values and book values of financial instruments as of March 31, 2020 and December 31, 2019 are as follows (Korean won in millions):

| | March 31, 2020 | | | | | December 31, 2019 | | |
|---------------|----------------|------------|---|------------|---|-------------------|--------------|--|
| | Book value | | | Fair value | | Book value | Fair value | |
| Bonds payable | ₩ | 29,272,261 | ₩ | 29,887,865 | ₩ | 29,530,202 | ₩ 30,228,914 | |
| Borrowings | | 21,727,379 | | 21,931,312 | | 14,762,038 | 15,850,637 | |

The fair value of bonds payable and borrowings was measured as the present value of the contractually determined stream of future cash flows discounted at the market interest rate (1.34% ~ 5.37%) regarding residual market risks. As the book values of other financial assets and other financial liabilities are reasonable approximations to fair values, the fair values have not been disclosed.

- 2) The Group categorized financial instruments measured at fair value based on the inputs to measure the fair value. The level of hierarchy of fair value is as follows:
 - Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
 - Level 2: inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
 - Level 3: inputs are unobservable inputs for the asset or liability.

- (*1) Equity ownership includes indirect investments held by the consolidated subsidiaries.
- (*2) The Group retains significant influence on the associate despite having less than 20% equity interests.
- (*3) Impairment losses on investments in associates were fully recognized as there was an indication of impairment prior to the current period.
- (*4) These companies were not included as consolidated subsidiaries as the Group does not have control over more than half of the voting rights by agreements.
- (*5) All joint arrangements that the Group has joint control over are structured through separate entities. The parties that have joint control with respect to the joint agreements hold the rights to the net assets of the agreements and accordingly, they are classified as joint ventures and accounted for using the equity method of accounting.

25. Income taxes

The Group calculated income tax expense by adding the current period adjustments to the accumulated interim tax expense, reflecting deferred tax expense (income) due to changes in temporary differences and considering adjustments not related to the interim profit or loss.

The average effective tax rate is not calculated during the current quarter due to pre-tax losses, and the average effective tax rate for continuing operations in the previous quarter is 23.96%.

26. Earnings (losses) per share

(1) Basic earnings (losses) per share for the three months ended March 31, 2020 and 2019 are as follows (Korean won in millions, except per share and weighted-average number of ordinary shares outstanding):

| | For the three months ended | | | | |

| Basic earnings (losses) per share (in Korean won) | ₩ | (3,595) | ₩ | 8,237 | |

(*1) The weighted-average number of ordinary share outstanding is calculated by multiplying the number of shares issued by the portion of the reporting period those shares covered. The treasury shares held until the disposal date, after the date of acquisition, are excluded from the number of ordinary shares outstanding.

The basis of calculating weighted-average number of ordinary shares for the three months ended March 31, 2020 and 2019 is as follows:

| | For the three months ended | | | |
|--|----------------------------|--------------|--|--|
| | March 31, 2020 March 3 | | | |

On April 29, 2019, LG Chem Ltd. and others (collectively referred to as "LGC") filed a lawsuit against SK Innovation Co., Ltd. and SK Battery America, Inc. (collectively referred to as "SKI"), the subsidiaries of the Group, regarding an infringement of its electric battery trade secrets and instituted a request to the U.S. International Trade Commission (ITC) for ban on the import of lithium ion battery and others. On November 5, 2019, LGC requested a default judgment to ITC over an incomplete fulfilment of evidence preservation obligation breached by SKI during the litigation process. On February 14, 2020, the ITC made a default judgment against SKI in a lawsuit without holding additional hearings for the infringement of trade secrets. SK Innovation Co., Ltd. and SK Battery America, Inc. have requested a review by the U.S. ITC on Default Judgment, and the committee has decided to review the entire Default Judgment on April 17, 2020 and is currently in progress. According to the ITC's announcement, the final decision is to be made in October 2020.

On September 26, 2019, LGC additionally filed a lawsuit against SKI through the ITC alleging patent breaches and requested a ban on import as an remedial action. The lawsuit is currently in pending, and the final outcome is unpredictable as of March 31, 2020.

In addition, the above two lawsuits against SKI regarding infringement of trade secrets and breach of patent contract are also filed to the Federal District Court of Delaware on April 29, 2019 and September 26, 2019, respectively. The court ordered a temporary stop to both lawsuits, and accordingly, the final outcome is unpredictable as of March 31, 2020.

On May 4, 2020 The Attorney General Office in California, USA filed a civil lawsuit with the California District Court in San Franciso against Vitol Inc. and its subsidiaries, SK Energy America Inc. and SK Trading International Co., Ltd. for market price manipulation of gasoline products and anti-competitive, unfair practices for the refinery explosions in 2015. This case is currently in progress, and the duration and the final outcome are not predictable at this time. Thereafter on May 6, 2020, the end-consumers of gasoline have filed a number of related class action lawsuits in the federal court in California. The duration and final outcome of the class action lawsuits are also unpredictable as of this time.

In addition, SKC Co., Ltd., a subsidiary, guarantees 50% of claim amounts related to the patent litigation filed by Kaneka Corporation to SKC Kolon PI, Inc. In accordance with the payment guarantee agreement and the decision of the court to dismiss the trial on appeal case as of March 31, 2020, provisions amounting to USD 6,750 thousand have been recognized, which is 50% of the claim for SKC Kolon PI, Inc. amounting to USD 13,500 thousand. The amounts are included in other non-operating expenses. By the final results of litigation, the actual damages to be paid by the Group could be increased according to the payment guarantee ratio of the agreement. As of March 31, 2020, the timing of the first trial judgment and related damage amounts are not predictable.

34. Risk management

Regarding financial instruments, the Group is exposed to a variety of financial risks: credit, liquidity and market. This note presents information related to risk exposures of the Group and the main objective, strategy, evaluation of risk, management process and capital management. Additional quantitative information is stated throughout the interim condensed consolidated financial statements.

34.1 Financial risk management

34.1.1 Risk management activities

The board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The board of directors has established the risk management committee, which is responsible for developing and monitoring the Group's risk management policies. The risk management committee reports regularly to the board of directors on its activities. The Group audit committee is assisted in its oversight role by internal audit.

Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Group audit committee. The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

34.1.2 Credit risk

Credit risk is the risk of financial loss of the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. In addition, the maximum exposure to credit risk as of March 31 2020 and December 31, 2019 is as follows (Korean won in millions):

| | | March 31 2020 | Decemb | er 31, 2019 |
|---|---|---------------|--------|-------------|
| Financial assets measured at FVTPL | ₩ | 5,692,225 | ₩ | 5,164,770 |
| Financial assets measured at FVOCI | | 21,965 | | 24,047 |
| Financial assets measured at amortized cost | | 23,749,833 | | 22,034,353 |
| Derivatives designated as hedging instruments | - | 369,981 | | 178,446 |
| | ₩ | 29,834,004 | ₩ | 27,401,616 |

On the other hand, the Group has provided payment guarantees for others including related parties, associates and others. The Group, due to its payment guarantees, is exposed to credit risk (see Note 31).

34.1.2.1 Trade and other receivables

The Group enters into transactions only with customers that are credit worthy. Credit quality of a customer is assessed based on an extensive credit rating scored and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored and credit quality may be adjusted to reflect the appropriate appetite of credit risk in accordance with the Group's risk management policies.

The Group applies a simplification method that recognizes lifetime expected credit losses as a loss allowance for trade and other receivables. To measure expected credit losses, sales receivables and contract assets were divided based on credit risk characteristics and past due dates.

34.1.2.2 Guarantee

SK Engineering & Construction Co., Ltd., one of the subsidiaries, offers payment guarantees for loans of project financing. The financing liabilities related to the payment guarantees recognized are $\mbox{$\mathbb{W}$}4,468$ million as of March 31, 2020. The Group recognizes the financial guarantee liabilities related to the payment guarantees contracted with the Group, such as SK Engineering & Construction Co., Ltd., as of March 31, 2020 and December 31,2019

| | | March 31, 2020 | | December 31, 2019 |
|---|---|----------------|---|-------------------|
| SK Innovation Co., Ltd. | ₩ | 134 | ₩ | 252 |
| SK Engineering & Construction Co., Ltd. | | 13,380 | | 15,006 |
| SK Biotek Co., Ltd. | | 656 | | 656 |
| SK Networks Co., Ltd. | | 918 | | <u> </u> |
| | ₩ | 15,088 | ₩ | <u> 15,914</u> |

In addition, the Group has provided payment guarantees for others, including subsidiaries and others. (see Notes 31 and 33).

34.1.2.3 Other financial assets

Credit risk arising from other financial assets consists of long-term and short-term financial instruments, occurrence of trade opponent arising from the bankruptcy, etc. In this case, the credit risk exposure of the Group will be the same as the book value of the maximum applicable financial instruments. On the other hand, the management of the Group's credit rating, because it is excellent to deal with financial institutions, is judged to have limited impact on the credit risk of the financial institutions of the Group.

34.1.3 Liquidity risk

Liquidity risk is the risk that the Group encounters difficulty in meeting the obligations of the financial liabilities. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The contractual maturity of financial liabilities as of March 31, 2020 is as follows. Amounts include interests paid and presented at gross amounts (Korean won in millions):

| | | Contractual | Less than | 3 ~ 12 | | More than |
|----------------------------------|----------------|-------------------------|--------------|--------------|------------|-------------|

34.1.4 Market risk

Market risk is the fluctuating risk in fair value of the financial instruments or future cash flows caused by the changes in market price. Market risk consists of currency risk, interest rate risk, crude oil and petroleum product price risk, and others. The fundamental goal of market price management is the maximization of the profit and the limit of the exposure to market risk within an acceptable level. The Group sells and purchases financial derivatives and financial instruments or financial liabilities for the purpose of controlling the market risk. In general, the Group applies hedge accounting in order to minimize the volatility of profit.

34.1.4.1 Currency risk

The Group is exposed to foreign currency risk arising from sales and purchases denominated in currencies other than functional currency. Main currencies used for these transactions are USD, JPY, CNY and EUR.

Details of foreign currencies and liabilities as of March 31, 2020 and December 31, 2019 are as follows (Korean won in millions and foreign currencies in thousands):

| | | March 31, 2020 | | December 31, 2019 | | | |

| | Others | | | 697,498 | | | 535,864 |
| | | | ₩ | 13,817,008 | | ₩ | 12,590,637 |

Should the exchange rate of the aforementioned currencies fluctuate by 10%, the effects on equity would be as follows (Korean won in millions):

| | | | March: | 31, 2020 | December 31, 2019 | | | |
|-----|----------|----------|-----------|-----------------|-------------------|-----------------|--|--|
| | Currency | Increase | e by 10% | Decrease by 10% | Increase by 10% | Decrease by 10% | | |

| CNY | | | 36,455 | (36,455) | 12,807 | (12,807) | | |
| EUR | | | (10,693) | 10,693 | (3,093) | 3,093 | | |

The Group is hedging currency risk by using derivative financial instruments such as currency swaps, currency forwards and others (see Note 19).

34.1.4.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates. The Group's management has entered into the foreign currency swap and interest rate swap contracts to manage its interest rate risk (see Note 19).

34.2 Capital risk management

The fundamental goal of capital management is to keep a sound financial structure. The Group is using the debt ratio, calculated as total debt divided by total amount of capital, as an indicator of capital management. The Group maintains a debt ratio of 163.1% as of March 31, 2020. The maturity of the debt is dispersed in the long term; so, debt-repayments are not demanding.

The Group's debt ratio as of March 31, 2020 and December 31, 2019 is as follows (Korean won in millions):

| | | March 31, 2020 | December 31, 2019 |
|-------------------|---|----------------|-------------------|
| Total liabilities | ₩ | 83,778,728 | ₩ 79,838,041 |
| Total equity | | 51,360,456 | 52,182,635 |
| Debt ratio | | 163.1% | 153.0% |

35. Business combination

(1) General information

SKC Co., Ltd., a subsidiary of the Group, gained control by acquiring 100% of shares in KCF Technologies Co., Ltd. on January 1, 2020 as deemed acquisition date through SKCFT Holdings Co., Ltd. With control of KCF Technologies Co., Ltd., the Group expects to be able to enter and expand into a scalable mobility business. On the other hand, the acquisition was accounted for using the acquisition method, and the interim condensed consolidated financial statements include the financial performance of KCF Technologies Co., Ltd. from the acquisition date to the end of the period.

SK Siltron Co., Ltd., a subsidiary of the Group, decided to purchase the SiC Wafer business unit of DDP Specialty Electronic Materials US 9, LLC, a subsidiary of DuPont de Nemour Inc., on September 10, 2019 to strengthen its business portfolio through new advancement into the material industry, and completed the transfer of its business unit on February 29, 2020.

36. Subsequent events

36.1 SK E&S Co., Ltd.'s disposal of stake in China Gas Holdings Ltd.

SK E&S Co., Ltd., a subsidiary of the Group, sold 535,034,500 shares (10.25%) of its stake in China Gas Holdings Ltd. for HKD 11,556,745 thousand through after-hours trading on April 17, 2020, in accordance with a resolution of the Board of Directors on April 16, 2020. As a result, the Group has lost significant influence on China Gas Holdings Ltd.

36.2 SKC Co., Ltd.'s discontinuance of EVA solar system business

SKC Co., Ltd., a subsidiary of the Group, decided to discontinue its EVA solar energy business through a board meeting on April 29, 2020 to promote efficiency of solar energy business due to the worsening market of the solar industry and intensifying competition led by China. The net loss before tax incurred for the respective business for the current guarter ended is \widetilde{W}35.6 billion.
